Have fraud, will travel.

I'm presenting today at the NACVA conference

I'm presenting my paper on fraud related to Hurricane Katrina at this year's Consultants' Conference for the National Association of Certified Valuation Analysts (NACVA). I'm part of the Fraud Deterrence track, and my presentation will be available on CD at a later date.

The attendees of this conference will include Certified Valuation Analysts (CVA), Accredited Valuation Analysts (AVA), Certified Forensic Financial Analysts (CFFA), and Certified Fraud Deterrence Analysts (CFD).

The NACVA is a great organization, and I'm looking forward to my presentation!

Read [my article about Hurricane Katrina and fraudulent financial statements](#).

EDITED: I'm currently at the conference and so far it is FANTASTIC!!! This organization is a class-act, and they're putting on a wonderful event.
